

Global Water Resources to Attend the 38th Annual ROTH Conference, March 22-24, 2026

PHOENIX, AZ – February 23, 2026 – Global Water Resources, Inc. (NASDAQ: GWRS), a pure-play water resource management company, has been invited to attend the [38th Annual ROTH Conference](#) being held at The Ritz-Carlton Laguna Niguel in Dana Point, California, on March 22-24, 2026.

The conference will feature on-demand presentations by companies across a range of industry sectors, in-person one-on-one and small group meetings, industry panels, and fireside chats.

Past conferences have attracted more than 5,000 participants, comprised of institutional investors, family offices, high-net-worth investors, and equity analysts.

On March 23-24, Global Water Resources CFO and SVP, Mike Liebman, will participate in one-on-one meetings with analysts and investors.

He will discuss the company's market leadership in utility consolidation, automation and water resource management. In addition, he will discuss rate case activity and the company's portfolio of utilities in major metro growth corridors around Phoenix and Tucson, Arizona. He will also review the company's ongoing expansion in customer connections that has driven strong revenue growth for the company.

Submit your conference registration request [here](#). To schedule a one-on-one meeting with Global Water, please contact your ROTH representative.

For questions or further information about Global Water, contact Ron Both of Encore IR at (949) 432-7557, or submit your request [here](#).

Headquartered in Newport Beach, California, Roth is a privately held, employee-owned organization and maintains offices throughout the U.S. For more information on Roth, please visit www.roth.com.

About Global Water Resources

Global Water Resources, Inc. is a leading water resource management company that owns and operates 39 systems which provide water, wastewater, and recycled water service. The company's service areas are located primarily in growth corridors around metropolitan Phoenix and Tucson. Global Water recycles over 1 billion gallons of water annually with 19.3 billion gallons recycled since 2004.

The company has been recognized for its highly effective implementation of Total Water Management (TWM). TWM is an integrated approach to managing the entire water cycle that involves owning and operating water, wastewater and recycled water utilities within the same geographic area in order to maximize the beneficial use of recycled water. It enables smart water management programs such as remote metering infrastructure and other advanced technologies, rate designs, and incentives that result in real conservation. TWM helps protect water supplies in water-scarce areas experiencing population growth.

Global Water has received numerous industry awards, including national recognition as a 'Utility of the Future Today' for its superior water reuse practices by a national consortium of water and conservation organizations led by the Water Environment Federation (WEF). The company also received Cityworks' Excellence in Departmental Practice Award for demonstrating leadership and creativity in applying public asset management strategies to daily operations and long-term planning.
